

Lakeview Orchard

Lanesboro, Massachusetts

Lakeview Orchard is a small, family-owned orchard located in Lanesboro Massachusetts. It overlooks Hoosac Lake from a panoramic, hilltop location. The orchard was started in 1996 and is owned and operated by Dave and Judy Jurczak. They provide us with white and yellow peaches and nectarines, Italian plums, apple cider, raspberries, and a wide variety of apples, from the remarkable Honeycrisp (you should taste them) to Galas, Ginger Gold, Shamrocks, Macs, and yellow and red Delicious. They produce 21 different varieties of apples. They also provide Wild Oats with cider donuts in the Fall.

Lakeview Orchard includes a farm stand, a bakery and kitchen, and a cider mill. It is open to pick-your-own customers as well as providing picked fresh fruit. They press their own cider on site, blending several varieties for a delicious taste. As you can see, the orchard is a popular Fall destination for school children interested to learn more about the sources of their food.
